

53rd Annual Operation Clean Stream Report
Estimated Attendance & Collection Summary - Summer 2020

In response to the COVID-19 pandemic, Operation Clean Stream 2020 was conducted from August 15 - 23, and volunteers participated in the event by doing a self-guided cleanup at their chosen location with members of their household. This year's figures were compiled from waste hauling invoices and reports from individual household volunteers to document their individual cleanup efforts. Due to this year's circumstances, there is much more variance in the accuracy of these individual reports.

Project Locations	Attendance	Trash (Cubic Yds.)	Tires (Each)	Metals (lbs)
Arnold Area	34	20	271	300
Big River, Lower	15	3.2	139	420
